Postage meters • Folding and inserting • Incoming mail • Software/barcoding • Folding • Addressing

## Document Print & Finishing Solutions

Lamination • Shredders • Wide format printers • Digital duplication • Guillotines • Binding • Whiteboards and copyboards

# Folding/Inserting | GBC AUSTRALIA

## Neopost DS-62 | Folder / Inserter

Remember the time when you had to put your mail together by hand? Manually collating, folding, inserting, sealing and stacking your mail pieces is a time consuming job!

But there is a better way: the Neopost DS-62 folder/ inserter.

The DS-62 handles all your mail automatically, saving time and money. It produces a professional looking mail piece and is as easy to use as a copier.

The exclusive "Load 'N' Go" feature couldn't be simpler; all you need to do is load the documents and press the button!

Feeder Capacity	325 sheets (80gsm)
Fold Types	Letter, zigzag, single, double parallel
Speed	Up to 2,200 inserts per hour

## Neopost AS-710 | Address Printer

Designed for frequent communications, the AS-710 utilises shuttle-head technology for maximum mail piece design flexibility.

Print any information – address, barcode, logo, message line – anywhere on the envelope.

The Neopost AS-710 offers the opportunity to quickly and easily personalise your outgoing mailings at speeds up to 14,000 postcards per hour.

- Shuttle-head inkjet technology
- 235 x 508 maximum print area
- Up to 600dpi resolution
- Speed up to 14,000 postcards per hour

## Neopost DS-86 | Folder / Inserter

Neopost offers a complete productivity solution package in the DS-86.

Features include – "Load 'N' Go", 20 job presets, high capacity versa feeder and up to 6 insert feeders.

Whatever application your business requires, the DS-86 takes care of it. Should requirements change as your business evolves, you know that your investment is protected, as you can simply expand or upgrade your system to meet your ever changing needs.

## Barcoding Software

We offer a comprehensive range of simple to use software applications for batch processing or interactively appending and printing Australia Post approved barcodes.

Running on the Windows platform, our user-friendly and menu driven solutions provide a fast, accurate way to validate records and append approved barcodes using the most common software applications.

If your business generates mail then we will offer a solution tailored to your specific needs. Whether your requirement is for a simple single user license or a complete enterprise wide installation, our suite of products will make it economical to put a barcoding solution on every desktop.

Take advantage of our solutions to improve address quality and slash mailing costs across your business now.

Features common to the range include:

- Validate and correct addresses upon entry
- Append Australia Post approved barcodes and sort prefix codes
- Integration with Microsoft Word, Access and Excel
- All software and Postal Address file updates for 12 months

Barcoding, sorting and metering your mail can yield significant postage discounts of up to 29.9%\*

\*discounts can be greater for eligible charity mail

# Postage Meters | GBC AUSTRALIA

## Neopost IJ | Postage Meter Range to suit your business.

### Light Volume

When you're a small to medium sized company, you need access to postage 24/7 in all sorts of values from local to overseas mail. You might even need portability so you can finish the postage at home.

Neopost's answer is the IJ25. Quiet and compact, this is a revolution in cost effective convenience for the lighter volume user. With InkJet printing technology at 300dpi, you will leave a crisp impression on your mail and its recipient. A company logo or graphics plus your return address can be printed with your postage value too. In built 2kg scale will correctly calculate postage for most commonly used rates.

### Mid Range

Neopost IJ range for the SME/SMB client include features often found on more expensive systems. A choice of models to suit your daily mail throughput, plus accessories like autofeeder, sealer and scale will enhance the operation.

Thoughtfully designed with simple keyboard layout, these models are practical, yet innovative. Even the first time user will get the mail out quickly, efficiently and with a professional stamp on each piece.

For single letters or large mailings, these compact and quiet solutions process your vital business mail swiftly and professionally.

### Higher End Users

Neopost and GBC recently improved on their already impressive stable of products for the enterprise/corporate client.

Complementing the models capable of speeds up to 13,000 envelopes per hour we have included a dynamic weighing/sizing system called I-Weigh. This product has the capability of deciding price of mail based on size and weight - we call this PIP "pricing in proportion".

For big volumes, add the MMF 'mixed mail feeder' for envelopes from 2 - 16mm without user intervention.

Integrated scales complement these system so you always have the right prices on hand for your outbound mail. Put that Australia Post price book away - you won't need it again! Need to print a report on usage? Easy! We'll connect an InkJet printer for you.

No-one else has these capabilities in a modular system.

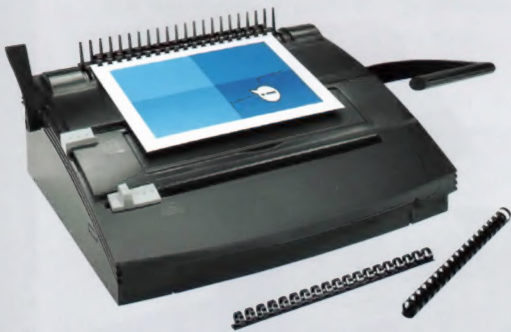

# Binding | GBC AUSTRALIA

## Docubind P200, P400 | Desktop plastic comb punch and bind.

The Docubind P200 and P400 are designed to function in the general office environment.

This range incorporates the new vertical punch throat to give precise alignment of the document and has a unique radial bind head, allowing smoother, easier and faster operation.

Increased productivity is achieved by easily punching 15 to 20 sheets at a time. Binding size up to 450 pages.

**P200** offers manual punch and close.

**P400** offers electric punch and manual close.

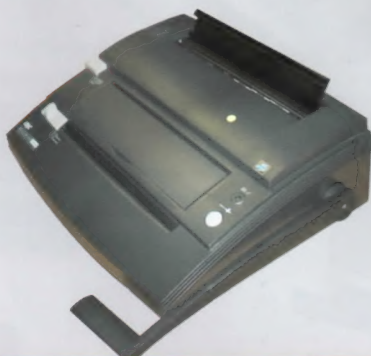

## Docubind TL200, TL400 | Desktop twin loop wire punch & bind

The Docubind TL200 and TL400 are designed to function in the general office environment.

This system features our new exclusive wire holder design that enables you to assemble your document as you punch, making it easier to load paper onto the binding element than with previous systems. 125 sheets bind capacity. Punching capacity of 15 to 20 sheets.

**TL200** is manual punch and close.

**TL400** is electric punch and manual close.

## MP2500iX | Modular Series Interchangeable die punching system

The GBC MP2500iX is designed for offices needing high volume punching with ease of use.

Never has there been a punch as versatile as the MP2500iX. Simply slide the die sets in place - no tools or locking levers are required.

### Punching capacity

Plastic comb	25 sheets
4:1 colour coil	17 sheets
Twin loop wire	20-22 sheets
Ring binder	25 sheets
Velo/Surebind	29 sheets

## PB2600 | Modular series plastic comb closer

PB2600 electric comb closer is very easy to operate with either the dual foot pedal or table-top button to activate the binding process. User-friendly features such as the adjustable binding knob and the LED display help you to easily set-up your system for each binding job.

## TL2900 | Modular series wire closer

Twin loop binding has never been easier! Revolutionary design of one station to punch and close and hassle-free operation makes TL2900 the wire binder of choice. Now your documents not only command attention, but are functional as well. Twin

loop bound documents lie completely flat when opened and pages wrap all way around for easy handling.

## Proclick® | New binding system

Automated desktop binder that is easy to use and stylish for the corporate office. An all-in-one punching and binding system that enables you to bind your documents quickly and efficiently. A new and modern product, ideal for those offices that require a fresh image in binding.

## HM6BS | Electronic stapler

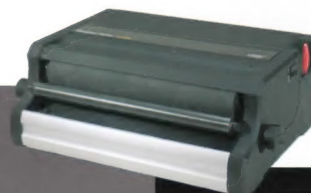

Staple documents from two sheets to 6mm thickness, fast and easy. Electrically operated by foot switch so your hands are free to position document on the large work table. Side and back lay stops can be positioned for accurate location of every staple.

Table can be repositioned for saddle stapling to make booklets. Single or two stapling head versions available with individual stapling pressure adjustment. Optional floor stand available. High quality German manufactured by Stago to meet all safety standards.

## CC2700 | Modular series coil closer

Produce attractive Colour Coil™ documents with a versatile production system from GBC. With its exclusive "Spine Former", adjustable roller knobs and all metal construction the CC2700 ensures quick, easy and reliable binding.

# Shredding | GBC AUSTRALIA

## DX-CD2 | CD shredder

Type of cut	cross cut
Cutting width	4 x 40mm
Sheet capacity	(a4/70gsm) 28-30

## EBA 5141C | High speed office shredder

High-performance office shredder offering 55 sheet shredding at high speed. This model includes self-oiling to lubricate the cutting shafts and a 225 litre waste capacity.

Insertion width	405mm
Type of cut	cross cut
Cutting width	4 x 40mm
Sheet capacity	(A4/70gsm) 40-45

Made in Germany

5 Year warranty on the cutting head

\* Available in straight and cross cut.

## EBA 5146S,C | high capacity shredder

High performance office floor document shredder with feeding hopper for crumpled paper. Also able to shred CDs, DVDs and 3 1/2" floppy shred trolley for easy removal of the shreds. Total front access.

Insertion width	460mm
Type of cut	cross cut
Cutting width	3.8 X 48mm
Sheet capacity	(a4/70gsm) 65-70

## EBA 6040S | Bulk capacity shredder

High capacity shredder with large feeding table and conveyor belt for controlled convenient feeding of flat and crumpled paper.

Insertion width	410mm
Type of cut	straight cut
Cutting width	5.8mm
Sheet capacity	(a4/70gsm) 90-110

## E7050-2C | Ultra high-capacity shredder

Innovative high-capacity shredder can shred 700 sheets at a time and incorporates two automatic speed levels that adapt the shred speed to amount of paper inserted.

Insertion width	500mm
Type of cut	cross cut
Cutting width	8 x 80mm
Sheet capacity	(a4/70gsm) 600-700

## Whiteboards | GBC AUSTRALIA

### IdeaShare™ | Interactive whiteboards

The difference between communicating and connecting.

IdeaShare™ helps you communicate more effectively while saving you time and money. Easy to install, learn and use. Save information to your computer in a variety of file formats. Email, print or beam information at the touch of a button. Turn the IdeaShare™ whiteboard into an interactive computer display. Share information in a free web meeting. Replay all information captured on the board – even after it's erased.

IdeaShare™ interactive whiteboard solutions are about freedom. The freedom to focus on generating great ideas instead of copying notes. The freedom to communicate in a way that makes the most of your time and budget. The freedom to expand meetings beyond the walls of your office. The freedom to include anyone in your brainstorming sessions, whether they're across town or on the other side of the globe. And the freedom to move your current working environment into the digital world

### GBC | Plain paper copyboards

Increase productivity and work efficiently with GBC plain paper electronic copyboards. The two screen rotating mylar surface offers plenty of space to write information and encourage audience participation. With the push of a button the boards instantly produce copies of the information written on the surface. Features include option of print in mono or colour, full length accessory tray, wall mounting brackets, mobile stand, dry erase markers, eraser and PC interface software.

## Guillotines and drilling | GBC AUSTRALIA

### EBA 430 Series | Manual and electric guillotines

#### EBA 435M

This powerful manual guillotine can cut up to 40mm height (thickness). Features fast flick action clamp. Spindle guided backgauge, hand guard and blade lock in upper position. Cutting length of 430mm.

Sliding table can be set to either 2,3 or 4 hole pattern. Drill up to 40mm thickness of paper in hole sizes from 3 to 6mm diameter.

High quality German manufactured by Stago to meet all safety standards.

# Laminating | GBC AUSTRALIA

## ❖ GBC 3500, 4500 | Desktop pouch laminators

Transform simple pieces into special presentation with the GBC 3500 and 4500 laminators.

Turn everyday items into high quality, long lasting professional pieces by using document enhancement products such as mouse mats, gold foil and designer frames.

The GBC 3500 laminates up to A3 while the GBC 4500 will laminate documents up to A2 size.

Features hot roller technology for bubble free lamination of photos and full colour copies.

## ❖ Catena Series | Roll laminators

Hot and cold roll laminators designed for school, office or professional use. Laminate, encapsulate and mount prints from colour printers/copiers, the Catena series offers the perfect finish for your full colour

digital output. The Catena has a host of features including speed and temperature control, pre-set laminating functions with manual override, roller pressure release, cold film setting and fixed open roller position to allow for efficient mounting up to 5mm thickness. Available in three models the Catena 35, Catena 65 & Catena 105.

## ❖ Trimboards | Manual and electric

### Desk Top Trim Boards

These rotary trimmers are ideal for cutting photos, films, plastic, laminated papers and many other materials. Features include standard paper size grid for ease of cutting in different formats, measures shown in both millimeters and inches, replaceable rotating blade.

DT65	Cutting length 65cm
DT100	Cutting length 100cm
DT1300	Cutting length 130cm

### Free Standing Trim Boards

Manual cutter ideal for cutting drawings, posters, maps etc. Smooth running blade carriage. Rotary blade in hardened steel.

DT150	Cutting length 150cm
DT200	Cutting length 200cm

## ❖ Docuseal 3100 | Roll laminator

Low cost, high performance hot shoe roll laminator ideal for schools, office and copy shops. Ideal for laminating posters, drawings maps, charts/graphs, educational resource material, plans, pamphlets, signs, catalogues and manuals.

- Simple operation
- Lamination width 800mm
- Cut off trimmer at the back
- Safety shield
- Easy replacement of film

## ❖ Titan 100 series | Wide format laminators

The professional wide format laminator available in two widths, 1100mm and 1600mm. The Titan is the perfect machine to produce a wide range of services in

a copy shop environment or in a copy centre, graphic printing shop or photo shop. Features hot and cold lamination, speed control, top and bottom independent temperature control, mounting onto 12mm foamboard, 8 bit microprocessor controlling pre-set function and variable pressure control. Rewinder and stand included.

# Digital Printing | GBC AUSTRALIA

## ❖ Duplo DP-S850 | High speed, networkable digital duplicator

*'More economical than a photocopier'.*

### Low Cost

Duprinters provide an exceptionally cost-effective answer for today's on-demand print environment. The cost-effectiveness is apparent when comparing regular laser printers and photocopiers. Print cost can be as low as 0.2 cents a copy.

### High Speed

Duprinters can print up to speeds of 130 copies per minute. It only takes 7 minutes for 1,000 copies.

### High Quality

High resolution thermal head and various image modes deliver up to 600 x 600 dpi print quality.

### Easy to Use

You can operate a Duprinter simply by pushing large buttons like a photocopier. Or simply print directly from your PC.

## ❖ ImagePROGRAF IPF610 | Wide format printer

From busy corporate environments to the most demanding design studios, print-for-pay applications to high volume school use, the versatile iPF610 is capable of wide format in high resolution colour – all at the highest print speed in its class.

# Canon

advanced simplicity™

24-inch printing width  
Bubble-jet on-demand  
2400 x 1200dpi

## ❖ HP Designjet Z6100 | Wide format printer

From posters to photos, maps to fine art, the HP Designjet Z6100 Printer series delivers exceptional print speeds with outstanding image quality and durability. Plus, with an embedded spectrophotometer and Original HP Vivera pigment inks, you'll get accurate, fade-resistant colour every time you print.

42-inch printing width  
Up to 105M2/hr print speed  
Eight original HP Vivera pigment inks

Onyx – Software to get up to speed and produce professional colour with tools that are simple to install and easy to use. Despite their simplicity, tools from Onyx are incredibly powerful and versatile.

Studiojet – A premium quality range of inkjet media including papers, vinyls, PP and synthetic for a wide variety of printers and applications. GBC also supplies all genuine inks and a variety of display stands.

Printed using Van Son VS1 process colour inks
